

## Activity 14-2 Facade and Mediator Patterns

Pattern roundup video

### Facade

10:14-16:00 Facade Pattern

- Facade “imposes a policy upon a group of objects”
- Constrains how the rest of the application interacts with the objects
- It is a *structural class pattern*.

### Mediator

16:00-23:00 Mediator pattern

- Controls the interaction of other objects behind the scenes
- It is a *structural object pattern*.
