

Template and Strategy Patterns

- 00:45-03:15 overview (may skip)
- 03:15-07:10 astronomy: The monster at the center of the milky way
- 07:10-13:34 The java case study: use case executors are Command pattern examples
- 13:34-20:30 The strategy pattern
 - 14:37-17:20: Definition of the problem: Strategy separates high level policy from set of low level details. Example of File Transfer.
 - 17:20-20:30 : Discussion of pattern naming, rant.
- 20:30-27:50 The template pattern
 - 20:30-23:10 : Example of Template method in the File Transfer example.
 - 23:10-27:50 : Discussion of strategy vs template
- 27:50-30:: “Write a loop once”: The ETS evaluator case study
 - 27:50-30:31 : Introduction to project
 - 30:31-32:40 : Vignette grande setup
 - 32:40-34:00 : Features (show)
 - 34:00-36:30 : Description of data structure (show)
 - 36:30-42:50 : Using the template method (show)
- 42:50-47:02 : The application template (may skip)
- 47:02-49:10 : Conclusion, comparison with factories (may skip)
- 49:10-50:11 : End Credits
